

# CONNECT CASE™

FOR iPhone® 4S & 4

"It keeps me connected. It's smart. And it fits my lifestyle."

That's what you love about your iPhone® 4S. Shouldn't it be what you love about the case you keep it in, too?

We pretty much love everything about the iPhone® 4S: the elegant, understated styling, the way it keeps us connected to our lives, and maybe most of all, the way it's amazing functions interconnect with each other. So when we created the Nite Ize® Connect Case™ for the iPhone® 4S and 4, we worked to mirror Apple's exceptional technology. We think we did a pretty good job. Made of high grade, shatterproof Lexan® polycarbonate, the Connect Case™ is slim, lightweight, durable, and practical. It offers serious protection from everyday wear and tear, dependable shock-absorption, and a unique design that keeps your iPhone®'s features accessible at all times. The top easily opens and snaps securely closed with an innovative flex-hinge design. Its slim construction allows "dock ability." Included with the case is the removable Connect Clip™ that allows you to conveniently attach your phone to pockets, straps, or belts. It also comes with a carry clip and a custom-sized, anti-fingerprint clear screen protector. Available in a range of eye-catching colors with soft-touch feel and a positive diamond grip pattern, the Connect Case™ gives you the protection you need for your iPhone® and the slim-line design that accentuates it's coolness.

We've also created some ingenious optional Connect™ accessories (think of them as apps for your case) that take connecting to a whole new level.
